SUMMARY

As a passionate and driven 5th-semester Computer Engineering student, I am deeply engaged in programming and application development. My academic journey has cultivated a strong foundation in computer engineering and a keen interest in leveraging technology to create innovative solutions. While still exploring the field, I bring an insatiable curiosity, a problem-solving mindset, and a commitment to continuous learning.

ACHIEVEMENTS

Class Topper

Topped all 4 semester

SKILLS

- Technical Skills : C, C++, Python, Java, Dart/Flutter, MySQL, Git/Github
- Communication skills
- Git/GitHub
