<https://www.linkedin.com/in/adhikariprakriti>

SUMMARY

Computer Engineering student with a strong interest in Machine Learning and Generative AI, focused on building intelligent systems that solve real-world problems. Experienced in computer vision, backend development, and AI-driven applications. Particularly interested in human-centered AI and creating systems that combine technical intelligence with meaningful user experiences.

EDUCATION

Bachelor of Computer Engineering

JAN 2023 - Present

Pokhara Engineering College

Pokhara-8, Phirke

PROJECTS

Traffic: Smart Traffic Light Automation & Monitoring System

Built a density-based traffic control system using YOLOv8 for real-time vehicle detection
Dynamically adjusts traffic signals based on congestion levels to improve traffic flow

ReflectCast: AI-Powered Podcast Generator

Converts user reflections into personalized AI-generated audio podcasts
Uses GPT-4o-mini, ChromaDB, and TTS for emotion-aware content generation

HomeGuard: Smart Surveillance System (Ongoing)

- Detects unauthorized individuals using computer vision and face recognition
- Event-based alerting with secure access and query interface

INTERNSHIP / WORKSHOPS

Django Workshop

May 2025 - June 2025

Gained practical experience in backend web development and strengthening core web technology skills.

Nobel Fundamentals Internship Program

May 2025 - June 2025

Collaborated with diverse international peers to build skills in leadership, communication, web design, and creative problem-solving.

Flutter Internship , Thulo Technology

Dec 2023 - June 2024

Contributed to real-world tech projects by developing Flutter-based apps, collaborating on code reviews, and engaging in innovation-driven problem-solving.

TECHNICAL SKILLS

- **Languages:** Python, C/C++, Java, JavaScript, Dart, HTML
 - **AI/ML:** Computer Vision (YOLOv8, OpenCV), Generative AI (GPT APIs), Face Recognition (FaceNet, Dlib), Vector Databases (ChromaDB)
 - **Backend & Databases:** Django, REST APIs, Firebase, MySQL, SQLite
 - **Tools & Platforms:** Git, AWS, Google Colab
-
